Radio

The Royal Concept

You're like a rebel on a wire
You gotta fight them till you're bleeding
You're like a voice through the sirens
They're gonna miss you when you leave themAnd I thought he was a loner, stoner
Nothing's gonna bring him back
And everyone says it's the radio, radio
Everybody come together forever
Not much, it's just a heart attack
And everyone says it's the radio, radioYou're gonna hit him with your best shot
You're hardly ever gonna miss him
You said you wanna start a fight
I'm gonna miss you when it's all doneAnd I thought he was a loner, stoner
Nothing's gonna bring him back
And everyone says it's the radio, radio
Everybody come together forever
Not much, it's just a heart attack
And everyone says it's the radio, radioNever gonna give it away
Whatever they say, whatever they say, no
I'm never gonna give it away
I'm keeping it safe, I'm keeping it safe for youAnd I thought he was a loner, stoner, a loner
And I thought he was a loner, stoner, a loner
Everybody come together forever
Not much, it's just a heart attack
And everyone says it's the radio, radioAnd I thought he was a loner, stoner
Nothing's gonna bring him back
And everyone says it's the radio, radio
