Mythology

Specter

I've looked right past the simple things
What have my eyes missed?
Stuck in a space where nothing seems to fit
You live a myth, obsessed with it
Quiet as the sound
I'm always asking what it means
And now I can't stop twisting round and round
I've grown into this
This myth with you
I can't stop twisting around this storyline
Distorting my insides
I won't forget, I'm drenched in it
'Cause I can't stop twisting around this storyline
Tangled words were never mine
I won't forget, I'm lost in it
Slowly bending backwards
'Til my days become misshaped
You deftly sway my thoughts with your fictitious ways
Nothing in me works the same
You've got a lot to explain
Still I'm asking and still I can't stop twisting

I've grown into this
Myth with you
I can't stop twisting around this storyline
Distorting my insides
I won't forget, I'm drenched in it
'Cause I can't stop twisting around this storyline
Tangled words were never mine
I won't forget, I'm lost in it
Knots and crosses, skews, I fold in two
With this road we take
I've lost all control of everything, especially me
You've lost everything especially me
You bite my tongue, oh, now I believe
I can't stop twisting around this storyline
Distorting my insides
I won't forget, I'm drenched in it
'Cause I can't stop twisting around this storyline

Tangled words were never mine
I won't forget, I'm lost in it
Oh, now I believe
