

Surrender

Vanessa Williams

I've never felt this way before
There's nothing else I could want more
Than something real, only passion can reveal yeah
With body and soul, I'm used to controlling
Every, everything
Now, I can let go, let down my guard
And we'll see how far this love can go [Chorus:]
I surrender my heart, I'm giving up
And I don't want to fight, I just want to love
I surrender it all, I'm giving in
To the power of love - surrender
This feels to good, can't bring me down
Feels like I could never touch ground
And how I've waited, true love anticipated yeah
yeah With body and mind, I know that there's time
For every, everything
Now, I can let go, let down my guard
And we'll see how far this love can go [Chorus]
And it's just too strong and I can't hold on
What used to be and clear to me
It's just a fantasy
I'm breaking down right here right now
I want you to know gonna take you slow just
Let the feeling flow I surrender
I surrender my heart, I'm giving up
I don't want to fight
Let it flow, just want to now I surrender it all, I'm giving in
To the power of love
I'm giving in baby [Chorus] Cause it's just too strong and I can't hold on
What used to be, just in clear to me
I'm breaking down, right here right now
Want you to know gonna let the feelings flow I surrender
My heart my heart
I don't want to fight no more
My heart my heart
Yeah, yeah, yah
