7-11

Dhruv

I met her at the 7-11 yeah
Now I'm in seventh heaven
Tell me tell me can this be true
I never thought I'd ever meet a girl like you
She was standing by the Space Invaders
So I said can I see you later
Yeah, we went for a little spin
Down to the Holiday Inn
We was young and in love
We was young and in love
And you're the only girl
I'm ever thinking of
We went down to the record swap
The kids were dancing to the Blitzkrieg Bop
Bop-shoo-wop-shoo-wop-shoo-wop
Bop-shoo-wop-shoo-wop-shoo-wop
What ever happened to the radio
And where did all the fun songs go
Summer fun with the Beach Boys on
But we all know what went wrong
We was young and in love
We was young and in love
And you're the only girl
I'm ever thinking of

And so we went out to the dance
Which turned into a whole romance
And after just one night
I never thought that things could be so right
Oh no no, no no no no, no
I kissed and hugged her and I said goodbye
Last thing I knew she wouldn't make it alive
Oncoming car went out of control
It crushed my baby and it crushed my soul
Now all I got is sorrow and pain
Standing out here in the rain
The crash, shattering glass, the sirens and pain
It's driving me insane
Oh yeah, we was young and in love

Yeah yeah yeah yeah yeah, we was young and in love
And you're the only girl I'm ever thinking of
Oh yeah, we was young and in love
Yeah yeah yeah yeah yeah, we was young and in love
And you're the only girl I'm ever thinking of
Oh yeah, we was young and in love
Yeah yeah yeah yeah yeah, we was young and in love
And you're the only girl I'm ever thinking of
