Tomorrow night

Shutter Island

Tomorrow Night (1000 Kisses) Tomorrow night will you remember what you said tonight Patty Griffin Tomorrow night will it be just another memory Tomorrow night will all the thrill be gone Or just another song that's in my heart to linger on And you willingly surrender to me, but darling will it last Tomorrow night will you be with me when the moon is bright Your lips are so tender, your heart is beating fast Your lips are so tender, your heart is beating fast Tomorrow night will you say those lovely things you said tonight And you willingly surrender to me, but darling will it last Tomorrow night will you be with me when the moon is bright Tomorrow night will you say those lovely things you said tonight
