

# MCF

## Cappadonna

Black solidarity day, arrest sentence  
Lookin' at the moon he starts his coming soon  
High like my man, c'mon give me the fame  
This flame is so bright, open up your life Let me swim with your feelings  
I love ya'll to death get married to my song  
I prolong nigga my style is real strong  
Plus I stay dipped like the first day of school Blood pool kid with the low cut fade  
My darts is number one, playtime is over  
Black October, my debt still correct  
Revised and updated from the old temple Big pens is Tai Chi  
Head crack shit my brains is Jet Li  
Put away your weapons it's Master M.C  
One hundred skills if you ever try to fuck me Feet come first, sometimes not the head  
Some niggas eat, some don't get fed  
If you live by the sword you might die by the lead  
You get what you get if you thinking with your dick MCF mean you're thinking with your head  
Money comes first, this time I can't dead  
You get what you get if you thinking with your dick  
MCF mean you're thinking with your head Warp in the projects watch out for Ted  
Hearse get your first, too late, no paramed  
Dark Park Hill day, cold and sour  
It's only Staten Island that represent the power God body we stand, unite kid right  
With the excellent beam of light, so stand still  
Hold your breath the late homicide hill  
Before the big gates everything was chill Shaolin, it's like Hurricane Kim  
SU, you better beware we comin' in  
Original, yeah it's the kid from back then  
To all the pussy niggas that be tryin' to pretend MCF killa bees son, what you gotta problem?  
Deja vu, 45 slug that escalates  
Don't perpetrate hip hop is mine  
Find something else, words is dealt quarterly In a orderly fashion, thrashin'  
Black mama javelins travellin'  
Once again dun try to comprehend  
Catch a split end Feet come first, sometimes not the head  
Some nigga's eat, some don't get fed  
If you live by the sword you might die by the lead  
You get what you get if you thinking with your dick MCF mean you're thinking with your head  
Money comes first, this time I can't dead  
You get what you get if you thinking with your dick

MCF mean you're thinking with your head  
Im takin' trips downtown havin' the shit go down  
Fresh niggas, fresh hats sometimes I carry gats  
Low straps baggy slacks one forced the chain  
With the six gold caps I go for dolo, hear my LP style for solo  
Han solo with his rap star wars goin' on tours  
For the cause whirlwind, record spin walk forward  
Explorin' the lime livin' plus thank heads forgivin'  
But sue the ones that don't, cappa's goin' gold  
Never sold my soul, twenty somethin' years old  
Try for the globe one time tastin' the wine  
Teeth are dumb, deaf and blind  
Have strength to go the whole length  
For my two seeds house these  
Tooth fairies, February sanctuaries  
Child support court days are too short  
I'm completin' all my goals  
Stay amped up be alert, secure the foundation  
Seek more education that money can never worth  
Head first, feet first whatever the case  
MCF means fuck off kid, you outta place  
Feet come first, sometimes not the head  
Some nigga's eat, some don't get fed  
If you live by the sword, you might die by the lead  
You get what you get if you thinking with your dick  
MCF mean you're thinking with your head  
Money comes first, this time I can't dead  
You get what you get if you thinking with your dick  
MCF mean you're thinking with your head
