I Find Jesus

Nitty Gritty Dirt Band

I walk in silence when it comes
This feeling when the spirit leads me on
If the dogs are barking and the night is rough
I take it as a sign to climb above
The city to the hill among the clouds
Where I can see my Savior now
He's waiting with His palm to me outstretched
His mercy is a balm when I'm perplexed
I find Jesus in the darkest night
I find Jesus in the morning light
I find Jesus in the face of those
Whose hearts are singing with the Heavenly Host
Sometimes when I feel all alone
I look around and all are gone
The friends that I rely upon
Are busy doing what they want
I look within and I am told
It's Sunday morning in my soul

And there I find a holy hall
Where congregations heed the call
I find Jesus in the darkest night
I find Jesus in the morning bright
I find Jesus in the face of those
Whose hearts are singing with the Heavenly Host
And when I lay down my last time
And feel a chill run up my spine
And recognize my time has come
I'll look around, He'll lead me home
He'll reach His loving hand to me
And bid me climb to victory
Where we'll find kindred spirits there
Hearts raised in song without a care
I find Jesus in the darkest night
I find Jesus in the morning bright
I find Jesus in the face of those
Whose hearts are singing with the Heavenly Host
