PeopleWatchingAtClaphamJunction (Feat. Sam Russo)

Mike Scott

We're still in a state of crisis
Just look at the way that we fight it
We blame the immigrants
When there're so many cunts that are actually born here.
So take a look at yourselves.
How can you blame the minorities when
Most of us fail.Let's blame the drugs. Let's blame the violent cunts.
Let's blame everyone. Including us.
Let's blame the schools. Let's blame the fucking fools
Who instigate these crazy ideals.We're still in a state of crisis
Just look at the way that we fight it
We put our faith in, in a hierarchical system that's
That's antiquated, and lacks the vision to take us further.
So we listen to
The opinionated right wing tabloids.Let's blame the drugs. Let's blame the violent cunts.
Let's blame everyone. Including us.
Let's blame the schools. Let's blame the fucking fools
Who instigate these crazy ideals.
