Get It Down

Stellar Road

Lay back with no cares in the world
empty hearts and broken hands
boys and girls
through the air
a magic carpet ride it seems
lawnmowers can fly
attach our minds to the kites
that fly really really high
get it down

Concentrate now son on me
I`m gonna teach you to be
so much better than me
through the air
the smoke that bares all your mistakes
are you willing to scratch and scrape
and claw at the paint
just to do whatever it takes

get it down don`t you assume now
open up but don`t let your guard down
no matter what these people say
your life you live it the right way

get up
it`s time to feel alive again my friend
it`s time to explore the world
with all of your senses numb
through the air
this magic carpet ride it seems
lawnmowers can fly
attach our minds to the sky
and never come down
because we`re really really high
