You are so beautiful

Bosson

I could've found a better way
You know i never should have stayed
I could've done the things i believed were wrong
Now you're saying that its late
It doesnt matter what i say
You know you're just another one of my mistakes
You are so beautiful, You are the kind of girl
that has the chemicals that makes me fall in love
Beautiful, you are the kinda girl, that has the chemicals
That makes me fall in love
So now i'm feeling like a slave
I'm locked away inside this grave
And i'm hoping for a way i can be saved
You know that there will come a day

when i'm just gonna have to change.
you're just another one of my mistakes
You are so beautiful, You are the kind of girl
that has the chemicals that makes me fall in love
Beautiful, you are the kinda girl, that has the chemicals
That makes me fall in love
Fall in love
You know i felt a strong regret
You lied about, You lied about
You lie to me, lie to me
You are so beautiful, You are the kind of girl
that has the chemicals that makes me fall in love
Difficult, so very difficult
You are the kinda girl, that makes me fall in love, fall in love
