

# Animal Desires

## King Charles

Oh desire consumes me like a fire consumes me  
Growing with every life it ends  
The burning core grows hotter and hotter  
Suffocating love that struggles enough Oh the graveyard follows the trail of the flame  
Black and ruined the ghost of love  
I welcome the fire as I punish the love  
Good shouldn't need to tempt us above Let me love you, I wanna show you  
Give your love, give your love away  
I wanna hear your thinking, hear your heart beating  
Give your love, give your whole life away  
Well the fire feels warm and out of control  
As I entertain my mind  
The weeds grow fast and choke the garden  
How I feel on the wild  
Good shouldn't need to tempt us  
Good shouldn't need to tempt us Let me love you, I wanna show you  
Give your love, give your love away  
I wanna hear your thinking, hear your heart beating  
Give your love, give your whole life away Let me love you, I wanna show you  
Give your love, give your whole life away  
You can't deny  
You can't deny  
You can't deny  
You are an animal with an animal's desires  
You are an animal with an animal's desires Dusk and death, here is my breath  
And all of them my gift to you  
The season for feeling is always in blue
