In Other Words

Toby Keith

You've got my heart in unfamiliar territory
It's never been out here on my sleeve
Here tonight with you it's quite a different story
You bring out a side of me, no one has ever seenThere's somethin' I'm afraid to say to you too early
But I'd be a fool to wait too late
My mind is cautious but my heart is in a hurry
Which one's right is really hard to sayIn other words, I can't put, 'I love you'
In other words when I look into your eyes
No other words can capture what I'm feelin'
My heart tells my head some things can't be saidIn other words
Better men then I, have tried to find a better phrase
Still, 'I love you', has a ring I've never heard
In other wordsWhat we got here is a touchy situation
You smile as if you read my mind
Pair of, 'I love you's', gently ends this conversation
'Cause matters of the heart can't be definedIn other words, I can't put, 'I love you'
In other words when I look into your eyes
No other words can capture what I'm feelin'
My heart tells my head, some things can't be saidIn other words
Better men then I have tried to find a better phrase
Still, 'I love you', has a ring, I've never heardIn other words
Better men then I, have tried to find a better phrase
Still, 'I love you', has a ring, I've never heard
In other words
