Hypocrisy

Nuclear Assault

The reighteous gather to deliver judgement
Never caring for the needs of the poor
Are you pro-life when you bomb their clinics
Killing the unborn and the born
It's also a sin to use protection
Or that is what you have us believe
You don't care 'cause it doesn't affect you
You're too fucking old to concieveWallow in hypocrisy
Wallow in hypocrisyFrom where I stand and hear you talk, it really makes me sick
What's even worse is people seem to listen to these hicks
A woman's body's not your provence, none of your concern
So go back to your bible belt, you've got a lot to learnAdoption's not the answer either
Is it fair for you to say
That she should go through prenancy
So a total stranger can take it away
Why don't you just mind our business
Leave the rest of us alone
'cause I don't care about the bible
Or what your holy pope condonesWallow in hypocrisy
Wallow in hypocrisyFrom where I stand and hear you talk, it really makes me sick
What's even worse is people seem to listen to these hicks
A woman's body's not your provence, none of your concern
So go back to your bible belt, you've got a lot to learnThe reighteous gather to deliver judgement
Never caring for the needs of the poor
Are you pro-life when you bomb their clinics
Killing the unborn and the born
It's also a sin to use protection
Or that is what you have us believe
You don't care 'cause it doesn't affect you
You're too fuck old to concieveFrom where I stand and hear you talk,it really makes me sick
What's even worse is people seem to listen to these hicks
A woman's body's not your provence, none of your concern
So go back to your bible belt, you've got a lot to learnWallow in hypocrisy
Wallow in hypocrisy
Church and state conspiracy
Wallow in hypocrisy
Barring any leniency
Wallow in hypocrisy
Ancient in their dormacy

Wallow in hypocrisy
They wallow in hypocrisy
Wallow in hypocrisyHypocrisyWallow in hypocrisy
