Live for Music

Shaun Canon

Chorus:Take center stage and lose it
Show the world you live for music
Take your broken dreams and use it
Show us you live for music!Vs. 1
You punched my face for the last time
You knocked me down so you think that I
Am terrified but Im not scared of you
Ill jump over your head to escape
Ill let the wind carry me away
To new blue skies
When rocks are pouring down like rain
I wanna be the one holding the flame
But a distant voice that knows my name
Is flooding my soulChorus
Is says, Take center stage and lose it
Show the world you live for music
Take your broken dreams and use it
Show us you live for music
Add up all your cuts and bruises
Show the world you live for music
Throw away your last excuses
And show us you live for musicVs.2
These words come from the back of my mind
I promise I wont be satisfied
Til I can sing them all directly to you
Ill sing it loud and Ill sing it clear
Ill overcome your longest fears
And shoot through mine
When words are knives you throw my way
I wanna argue back with Live grenades
But every voice that knows my name
Is flooding my soulChorus (repeated)Bridge
With clouds between my knees
The stars are within my reach
With clouds between my knees
The stars are within my reachChorus (repeated)
I live for music, I live for music
I live for music, live for music!
