# Find Your Way

## Timbis

I need a lover who keeps me warm inside
She can discover anything she likes
She can pray, she could break a lot of things
Like my heart
I'm sinking slowly
I see your face, it's everywhere
Love can be so mean but I don't even care
So I pray for the day you'll come back to me, it's not right
Don't be afraid, I'm gonna make everything okay
Tell me you'll stay, I never wanted us to break
You'll find your way
You could have anything at all, so find your way
I need your love, 'cause you mean that much to me
Girl do you wonder what it all could be
True romance
We could dance our lives away it's so right
Don't be afraid, I'm gonna make everything okay
Tell me you'll stay, I never wanted us to break
You'll find your way
You could have anything at all, so find your way
Don't be afraid, I'm gonna make everything okay
Tell me you'll stay, I never wanted us to break
You'll find your way
You could have anything, so find your way
