

# Change The World

Jason Derulo

[Verse 1]

With your eyes, with your lips  
With your thighs, with your hips  
The way you change me  
Girl this might come in handy Ah, with your smile, with your walk  
Girl I pause when you talk  
You make me peaceful  
The rest of world may need you [Hook]  
Look how you got me goin'  
Time with you is golden  
You can save world from foldin', no Look how you get me higher  
You hold the world's desires  
Put truth in all the liars [Chorus]  
You could change the world  
(You could change the)  
(You could change the world)  
(I could change the world) You could change the world  
(You could change the)  
(You could change the world)  
(I could change the world) You could change the world [Verse 2]

With your words now I see  
How the greatness in me  
You make me better  
Every kiss from you I treasure If every man have you  
All the wars would be through  
They'll get like I get  
On the streets they'll be no riot [Hook]  
Look how you got me goin'  
Time with you is golden  
You can save world from foldin', no Look how you get me higher  
You hold the world's desires  
Put truth in all the liars [Chorus]  
You could change the world  
(You could change the)  
(You could change the world)  
(I could change the world) You could change the world  
(You could change the)  
(You could change the world)  
(I could change the world) You could change the world
