# Remembrance Day

## Mark Knopfler

On your maypole green
See the winding Morris men
Angry Alfie, Bill and Ken
Waving hankies, sticks and books
All the earthen roofsStanding at the crease
The batsman takes a look around
The boys are fielding on home ground
The steeple sharp against the blue
When I think of youSam and Andy, Jack and John
Charlie, Martin, Jamie, Ron
Harry, Stephen, Will and Don
Matthew, Michael, on and onWe will remember them
Remember them, remember them
We will remember them
Remember them, remember themTime has slipped away
The summer sky to autumn yields
A haze of smoke across the fields
Let's sup and fight another round
And walk the stubble groundWhen November brings
The poppies on Remembrance Day
When the vicar comes to say
May God bless them everyone
Lest we forget our sonsWe will remember them
Remember them, remember them
We will remember them
Remember them, remember themWe will remember them
Remember them, remember them
We will remember them
Remember them, remember them
