Broken Wave

Enchant

Beyond breakin' waves she walked the shore
Thoughts diving down the ocean floor
The ocean flows like life, just like lifeHope is not a thing that she inclines to take into confidence
For another disappointment, there can be no recompense
Like the vastness of the world, bad luck does not make sense
Yet, in this disappointment, the sea can give her sustenanceShe cast her worries into tidal pools
The wishing wells for lovers and fools
The one flows like life, just like lifeHope is not a thing that she inclines to take into confidence
For another disappointment, there can be no recompense
Like the vastness of the world, bad luck does not make sense
Yet, in this disappointment, the sea can give her sustenancePaint another picture of the world
Sketch another image of yourself
Rearrange all the contours and the linesHope is not a thing that she inclines to take into confidence
For another disappointment, there can be no recompense
Like the vastness of the world, bad luck does not make sense
Yet, in this disappointment, the sea can give her sustenanceSustenance
Sea can give her sustenance
