Wendy

Kail

Close your eyes,
I can't see you
Anymore than i can see me here with you
And I'll defy the whole galaxy
Just to be here in your arms under the moon
Just so you know
I'm in over my head
And i can't touch the ground
But nothing is going to stop me now
Wendy
We'll defy the stars together on the moon
For you singing
Wendy
So wrap around me
Forever, forever for you
Dry your eyes, little darling
And I'll break just break like china doll in two
And my disguise
Little darling
Is a hole inside my heart that's built for two
Just so you know
I'm in over my head
And i can't touch the ground
But nothing is going to stop me now

Wendy
We'll defy the stars together on the moon
For you singing
Wendy
So wrap your arms around me
Forever, forever, for you
(Wohh!)
This is the last time
I won't apologise to you
No matter what I've done
This is the last time
Looks like we won't pull through
So baby let it shine
So baby let it shine

So baby let it shine!
We'll defy the stars together on the moon
For you singing
Wendy
So wrap around me
Forever, forever for you
Wendy
We'll defy the stars together on the moon
For you singing
Wendy
So wrap around me
Forever, forever for you...
