Souls In Ice

Project Pitchfork

You are thinking, turn around, you are feeling, turn around
And you are here, arent you? You hear me, dont flee
You feel yourself, you ask yourself, what is this?
Hold this thought, dont flee
Close your eyesWhere is your center? Where is my voice
Does a stone move your heart or a soul of your choice?
Where is your center? Where is my voice
Does a stone move your heart or a soul of your choice?You are existing, arent you? You are emotion, arent you
You are flexible, arent you? You are following me, arent you?
Physical, no, feel yourself, locate yourself
Locate yourself, feel yourself
Close your eyesWhere is your center? Where is my voice
Does a stone move your heart or a soul of your choice?
Where is your center? Where is my voice
Does a stone move your heart or a soul of your choice?Where is your center? Where is my voice
Does a stone move your heart or a soul of your choice?
Where is your center? Where is my voice
Does a stone move your heart or a soul of your choice?Where is your center? Where is my voice
Does a stone move your heart or a soul of your choice?
Where is your center? Where is my voice
Does a stone move your heart or a soul of your choice?Where is your center? Where is my voice
(These are my words like souls in ice)
Does a stone move your heart or a soul of your choice?
(Beside your mind or into you)
Where is your center? Where is my voice
(These are my words like souls in ice)
Does a stone move your heart or a soul of your choice?
(Beside your mind or into you)
