Don't Believe

Cherryholmes

So easy to get lost in part in the game that's played.
But you'll wake someday to find you're
caught up in a trap thats laid.
You believe in life when someone tells
when you know that it cant be true
what you ever blindly follow whatever is in front of you.CHORUS:Don't believe in everything you hear or see.
Don't be the one to find out
things aren't always what they seem to be.[MUSICAL BRIDGE]Why wait around for someone else
to show you what you believe.
Never mind which way the wind blows
you can find the nerve to breathe.And have you ever had a dream so bad
and thought of it makes you weep.
What about the dream that needs you
crying close, you're not asleep.CHORUS:Don't believe in everything you hear or see.
Don't be the one to find out
things aren't always what they seem to be.[MUSICAL BRIDGE]Don't believe in everything you hear or see.
Don't be the one to find out
things aren't always what they seem to be.Don't believe
