

# Low Life

## Mo Foster

I've been on my best behavior  
My conscience is a little too clean  
My halo's just a little too tight now  
I'm tired of the old routine  
So, baby, let's get down and dirty  
Forget about right from wrong  
I wanna sleep in a cheap motel room  
With nothing but the TV on  
We need a little of the low life  
To keep our feet on the ground  
Just a little of the low life  
Sooner or later we gotta get  
Down to the low life, yeah  
Well, I don't wanna talk religion  
Don't wanna talk politics  
I don't wanna talk at all, babe  
I just wanna get my kicks  
So c'mon, baby, let your hair down  
You can chuck your pearls out the door  
Just a little black lace and a smile on your face  
We'll never need nothing more  
We need a little of the low life  
To keep our feet on the ground  
Just a little of the low life  
Sooner or later we gotta get  
Down to the low life, yeah  
I'm talking low, babe  
Now, baby, you don't wanna talk about your day  
And you sure don't wanna hear 'bout mine  
I'll meet you at the Notell Motel  
Underneath the vacancy sign  
We need a little of the low life  
To keep our feet on the ground  
Just a little of the low life  
Yeah, sooner or later  
You gotta get down to the low life  
Just a little bit of foolin' around  
We need a little of the low life  
Oh babe, we need a little of the low, low life, yeah

Let's get down and dirty low, low life  
Hey, we need a low low life  
Just get down and dirty, baby
