

# Gotta Move On

## The Verve Pipe

Thoughts of him where love is thin  
Can't you see the state you're in?  
What you're feeling isn't true  
What you've gotta do Is turn away  
(Leave the past behind)  
You can say  
(We'll give it our best try) Turn away  
(Never live a lie)  
A brighter day  
(A brighter day's in sight) Never seek, you'll never find  
How can you have peace of mind?  
You belong with someone else  
Is it time you asked yourself To turn away  
(Leave the past behind)  
You can say  
(We'll give it our best try) Turn away  
(Never live a lie)  
A brighter day  
(A brighter day's in sight) It is time that you move on  
It is love been away too long  
This is lost where you belong  
It is time that you move on, move on It is time that you move on  
It is love been away too long  
This is lost where you belong  
It is time that you move on, move on Move on  
(Move on, move on)  
Move on  
(Move on, move on) It is time that you move on  
It is love been away too long  
This is lost where you belong  
It is time that you move on, move on Move on  
(Move on move on)  
Move on  
(Move on move on)
