Overthrow

NoÃ¯thingness

Overthrow... attacks on one's own will only to defeat the whole
The true fight lies against the ignorance of the outside world
We cannot succumb to the conflicts of this inter-segregation
The creation of something pure has been infected by a prejudice
This movement can only survive with the committed support of all...
Overthrow
Overcome
Rise above
Rise as one...
Restricted the advancement of this voice is stifled by itself
When those who hold it in their grasp have become the enemy...
I... cannot stand alone
We must not accept this trend
With hands held high and fist clenched tight to put an end to this infest
End this dissension...
