Forever Man

Newsboys

I wanna go higher, higher
Set it free
There's gotta be more to touch
Than what I see
There's a reason we must be
For the love of god, speak it to meGood news for the modern man, yes it is
Made by the creator's hands, yes he is
Confirmed just who I am
Here I stand
The forever manIt's gotta be higher, higher
Let it be
Carry on from this life's brevity
When this mortal coil is twisting
With the love of mercy carry meSometimes we lose our sight
Open our eyes
No secret here
Heaven is nearGood news for the modern man, yes it is
Eternity in the heart of every man
Confirmed just who I am
Here I stand
The forever manAnd the longer I live
The stronger I feel a creator put us here
And the day will come, gravity will run
And we'll meet you in the airWhere face to face we will wonder
As the mysteries come undone
And at the end of all our travels
We find our journey's just begunHere I stand
It's who I am
Here I stand
Forever man
