Every Day

Rascal Flatts

You could have bowed out gracefully
But you didn't
You knew enough to know to leave well enough alone
But you wouldn'tI drive myself crazy tryin' to stay out of my own way
The messes that I made but my secrets are so safe
The only one who gets me, yeah, you get me
It's amazin' to meHow every day
Every day, every day
You save my lifeI come around all broken down and crowded out
And you're a comfort
Sometimes the place I go is so deep and dark and desperate
I don't know, I don't knowHow every day
Every day, every day
You save my lifeSometimes I swear I don't know if I am comin' or goin'
But you always say somethin' without even knowin'
That I am hangin' onto your words with all my might
And it's alright, yeah, I am alright for one more night
Every dayEvery day, every day, every dayEvery day, every day
Every day, every day, every day
You save me, you save meEvery day, every
Every, every dayEvery day you save my life
