# The Long Road

## Divide the Day

Can't take back the things that you say,
hey sure beats a hole in your head;
world runs by, don't you whine
talking that shit all the time?
Gotta find it in your faith when you grow up,
because you can't forget that day,
can't hold back, can't look away:
you discovered you gotta get away
Long road it's a long road,
long road it's a long road,
long road it's a long road;
long road it's a long road,
long road it's a long road,
long road it's a long road
Changing day, it's been a long time;
yesterday's shit is still on your mind,
causing problems everyday:
selfish habits won't go away.

Gotta find it in your faith when you grow up,
because you can't forget that day,
can't hold back, can't look away:
you discovered you gotta get away
Long road it's a long road,
long road it's a long road,
long road it's a long road;
long road it's a long road,
long road it's a long road,
long road it's a long road
Long road it's a long road,
long road it's a long road,
long road it's a long road;
long road it's a long road,
long road it's a long road,
long road it's a long road
