Under a Luminous Sky

Communic

Face suicide at the gates
Keep your evil away
From the mother of civilization
Who have resolved to compel
Under a luminous skyPlay the role of your holy God
To destroy for beliefs
While these subsequent uprising
Continuing until present day
Under a luminous skyThey kill for the sake of killing
To reach a new and better reality
They kill for the sake of killing
To reach a new and better realityThey kill for the sake of killing
To reach a new and better reality
They kill for the sake of killing
To reach a new and better reality, ah, ah, ah, aahA warning of the danger approaching, ah, aah
Those who act under illusions, oh, oh, oh, ooh
Under a luminous sky, oh, ooh
Those who act under illusions, oh, oh, oh, oh, oohThose who were cuffed by beliefs
And react on destructive instincts
Worldwide parade protest blooms
Fierce fighting still ragesThose who identify themselves
In the locked dimension of the turmoil
Divisiveness so bitter sweet and so coldCycle of violence will never end
There is no way to verify
The door to a truce is open
But only when the last soldier leaves
But only when the last soldier leavesThey kill for the sake of killing
To reach a new and better reality
They kill for the sake of killing
To reach a new and better reality, ah, ah, ah, aahA warning of the danger approaching, ah, aah
Those who act under illusions, oh, oh, oh, ooh
Under a luminous sky, oh, ooh
Those who act under illusions, oh, oh, oh, oh, oohThose who identify themselves
In the locked dimension of the turmoil
Divisiveness so bitter sweet and so cold
So cold
