Kill Control

Skrape

Over mind exposed
Down the tube it goes
Projects my sanity
Pass the point of pain
To decrease then gain
Image of my sceneI let you down for wastin' my crown
I held out your charm and took all your pridePut the rest in still
Charge my point and trip
Sucks the passion free
My distress I crave
Be submissed be brave
Precondition so I seeI let you down for wastin' my crown
I held out your charm and took all your pride
I took all your pride for wastin' my crown
I held out your charm 'cause I let you downKill it, control it
Kill it, control it
Kill it, control it
Kill it, control itI let you down for wastin' my crown
I held out your charm and took all your pride
I took all your pride for wastin' my crown
I held out my crown and I let you down
Kill it, control it
