Dark Matter

Dave Navarro

Inside the vehicle, the cold is extreme
Smoke in my throat kicks me out of my dream
I try to relax but it's warmer outside
I fail to connect, it's a tragic divideThis has become a full time career
To die young would take only 21 years
Gun down a school or blow up a car
The media circus will make you a starCrushed like a rose
In the river flow
I am, I know
I am, I knowDark matter flowing out on to a tape
Is only as loud as the silence it breaks
Most things decay in a matter of days
The product is sold, the memory fadesCrushed like a rose
In the river flow
I am, I know
I am, I know
