Under the Waterfall

Republic of Two

Swimming in the oceans full of cars
it's way we are, way we are
We don't even know how we got this far
it's who we are, who we are
Now that all the blue skies turned to black
cause she ain't coming back
and I don't even want to know her name
cause it always turns the same
Just standing in the winter sun
cause you can never turn me on

Dancing with the trees at night
cause you can never get me right
Sleep under the waterfall
cause I don't wanna hear you go
Listen to my beating heart
cause this is just the way we are

I don't wanna hear the noise of a crowd
lonely hearts the way we are
On those empty streets they sound so loud
there's no charms, she is not around
Feeling like a stone thrown to her lake
with no rhymes that it should make
Suddenly I feel her helping hand
she pretends to understand
Staring in the winter sun
cause you can never turn me on

Dancing with the trees at night
cause you can never get me right
Sleep under the waterfall
cause I don't wanna hear you go
Listen to my beating heart
cause this is just the way we are
