Medicine Man

dDub

(Verse)
The bold are brazen
The weak are sunk
The fast are fat
The last have none
The middle men are lying in the trunk

The heads are rising
The hearts are lost
The hands that feed
The face too full
Are falling off and lying in the dust

(chorus)
Some may give and some may take
Hearts mend or minds to break
You've got the love to give

Oh medicine man
Wont you come save us
We need saving
Oh medicine man
Wont you brave and
Stay and play
Help our minds be free

(Verse)
The wheels are turning
The course is cut
The legs are still
The feet are flat
The running boards are caught up in the rut

The lights are dimming
The fronts are backed
The seeds that once
Flowed free and full
Are curling up and keeping to the cracks

(chorus)

Some may give and some may take
Hearts mend or minds to break
You've got the love to give

Oh medicine man
Wont you come save us
We need saving
Oh medicine man
Wont you brave and
Stay and play
Help our minds be free

Come help our minds be free
Free
x3
Come help our minds be free

Some may give and some may take
Hearts mend or minds to break
You've got the love to give
x2

Oh medicine man
Wont you come save us
We need saving
x3

Yeah
Oh medicine man
Wont you brave and
Stay and play
Help our minds be free

Free
Come help our minds be free
Free
x2
