One Kiss

B2k

She was so sincere
The way she grabbed my hand
And introduced herself
Like no one else has done before
And I can't lie
I was hypnotized
By the smile, and the talk and the style of the walk
And when she tried to kiss me
I just sighed
Said to myself that this can't be real
I lied to my mind but my heart it could feel
Something was wrong don't worry
That's what she said now I
Look back on the night that changed my life
I remember the things
That made me call at night
And to think that I betrayed me for one kiss
One kiss for all my trust
One kiss for all my love
One kiss caused me to break
One kiss, I just hate it
One kiss, one kiss, one kiss
That's where I started feeling
One kiss felt so good
But I never should've had that kiss
I was so far gone
She could do no wrong
'Til I caught her in the act
Downright gettin' it on
How could I not see
That eventually she would break my heart
Where did it all start?
It started with a little bitty kiss
One kiss for all my trust
One kiss for all my love
One kiss caused me to break
One kiss, I just hate it
One kiss, one kiss, one kiss

That's where I started feeling

One kiss felt so good
But I never should've had that kiss
Mistook that kiss for kindness
How could I be so blinded
Should've read
Instead I made it easy, ooh
But I won't let my heart get hurt
It was all about a lesson learned
And the lesson that I learned was
Taught to me by one kiss
One kiss for all my trust
One kiss for all my love
One kiss caused me to break
One kiss, I just hate it
One kiss, one kiss, one kiss
That's where I started feeling
One kiss felt so good
But I never should've had that kiss
One kiss for all my trust
One kiss for all my love
One kiss caused me to break
One kiss, I just hate it
One kiss, one kiss, one kiss
That's where I started feeling
One kiss felt so good
But I never should've had that kiss
One kiss for all my trust
One kiss for all my love
One kiss caused me to break
One kiss, I just hate it
One kiss, one kiss, one kiss
That's where I started feeling
One kiss felt so good
But I never should've had that kiss
I've never should have that feeling
Ohh no, no, no
