# In Her Arms

## Gipsy Kings

I've been dreaming over
I've been dreaming over half the lies
You've been looking at me
You've been looking at me eye to eyeTake it easy
Lift your feet up off the burning ground
You don't see it
You get so high up 'cause you don't look downShe wants to hold you in her arms
She wants to tear you away from my heart
Does she light up like a lantern to show you the way through the dark?
Does she give you what you're missing? It's more than enough where we areIn her arms
In her arms
In her arms
In her armsYou believe in me
You believe in me alone tonight
But in my empire
I am king and I own the skyAre you sleeping?
Now the bed you made is burning down
Keep breathing
All the birds you caged are breaking outShe wants to hold you in her arms
She wants to tear you away from my heart
Does she light up like a lantern to show you the way through the dark?
Does she give you what you're missing? It's more than enough where we areIn her arms
In her armsLet there be smoke in my eye
Stop slipping there
I see her arms open wide
I stop slipping thenShe wants to hold you in her arms
She wants to tear you away from my heart
Does she light up like a lantern to show you the way through the dark?
Does she give you what you're missing? It's more than enough where we areIn her arms
In her arms
