

Game Over

Daley

[VERSE 1]

Baby Girl-

You're the most consistent thing in my world

No one else can represent like you do

So my life is what you make itDont speak-

There's nothing else you need to say, you got me

Yeah and you've have me under lock and key

Since the first kiss

Remember that?[BUILD]

So leave all the "He said, She said" behind

I'm playing for you; I'm on your side.

Didnt you know?[CHORUS]

Well, if you don't already know

It's Game Over (Game Over)

Yeah, If you don't already know

It's Game Over (Game Over)[VERSE 2]

Yeah we play head games

Dont always say the things we mean to say

But the feelings that we keep between the sheets as we sleep

Make the words irrelevant anywaySo I dont care what they say

Dont listen to people's doubts

Listen to me, just me

It's you I choose

And I'm doing everything I can to make you believe me[BUILD]

So leave all the "He said, She said" behind

I'm still playing for you,

I'm on your side.

Didnt you know?[CHORUS]

Well, if you don't already know

It's Game over (Game Over)

Yeah, If you don't already know

It's Game over (Game Over)[BRIDGE]

Now, dont worry about what people say

They're gonna always try to put the sun out with the rain

Just think about the history

Think about it all (all)

Then tell me where you belong[INSTRUMENTAL][CHORUS]

Well, if you don't already know

It's Game over (Game Over)

Yeah, If you don't already know
It's Game over (Game Over)
