Bliss

Michal

Open up my eyes
Realize this is not what I intended so long ago
I look through your eyes
Understand my life with you has ended
So long
I'm declawed and I'm neutered
I'm gutted and dead
A lot of my friends say that
I ain't so right in my head
Chorus:
That's alright
It's gonna be okay
Everything is good
It's gonna be alright
My first thoughts broke hard
A vague dull ache that percolated
Through my skull just like a shot gun blast
Details are the worst; they are just your soul eviscerated
A vice that's holding fast
I'm defenseless and blissful
My mind is at rest
Everything is so peaceful
I'm blind but I'm blessed
Chorus (4x)
