Stranded

Greyson Chance

Sat there on the dock
With both my feet grazing the water
I could taste the island beaches on my tongue
Splashes on the rocks
Got me imagining the palm trees.
And the shorelines spotted up with coconuts.
Tidal waves and hurricanes
Broken anchors, crashing planes
Keep washing me up on your sand
Take my hand
I wanna be stranded on this island with you oh oh
I wanna be stranded on this island for two oh oh
And i hope it's somewhere far
Where only we are
Stranded on your heart
Spend my free time thinking
How your tears aren't made for drinking
But i'm thirsty for what you're keeping inside
Losing track of time what seem's like weeks
Is only hours
I can't wait until that moment when you're mine
Even though we're not the same
Different in every way
I can't but smile when you say
Take my hand
I wanna be stranded on this island with you oh oh
I wanna be stranded on this island for two oh oh
And i hope it's somewhere far
Where only we are
Stranded on your heart
I won't call S.O.S
No message in a bottle
No signaling with smoke
I'm trying to get home
If i can't be with you
I'd rather be alone
I wanna be stranded on this island with you oh oh
I wanna be stranded on this island for two oh oh
And i hope it's somewhere far

Where only we are
Stranded on your heart oh oh oh
And i hope it's somewhere far
Where only we are
Stranded on your heart
And i hope it's somewhere far
Where only we are
Stranded on your heart
