The Well | Flux Kompensator

campdogzz

They're gonna come real low
To wreck us all
They're gonna come in rows
With a fire on em
The fire in your blood
It resonates
The fire in your blood
it's understated

And you're right
You own my only dime
And you're right
You own my own
so you can drag it off
And throw it out
You're right
You own my only dime
It's coming up fast and you're out back (2x)

They're gonna come real low
with the record on
They're gonna come so-so
To tie the knot
Choirs in the church
My heart is heavy
Choirs in the church
They said I'm ready

And they're right
You own my only dime
They're right
You stole my own
So you can drag it off
And throw it out
They're right
You own my only dim

It's coming up fast and you're out back (2x)

My god

Do you recognize your home
It's gone
Straight to hell
And it's burning all up through the ground
The well
It runs the whole damn show
The well
It runs the whole god damn rodeo

It's coming up fast and you're out back (4x)
