A Better Place

Army Of Anyone

Let's begin my favorite thing
We'll take a journey to a place within
So help me to travel
Maybe the next wave will unravelIn my own skin, in my own heart
Wish you'd come in but the place is blown apart
In my own skin, in my own heart
We have to rebuild, the hardest thing is just to startMake me a better place
It's filled with a little love, yeah
Make me a better place
It's filled with a little love, yeahScreamin', dreamin'
We've taken a trip to where our thoughts unload
Dreamin', believin'
The place we ended up is where the truth is toldIn my own skin, in my own heart
Wish you'd come in but the place is blown apart
In my own skin, in my own heart
We have to rebuild, the hardest thing is just to startMake me a better place
It's filled with a little love, yeah
Make me a better place
It's filled with a little love, yeahIn my own skin, in my own heart
Wish you'd come in but the place is blown apart
In my own skin, in my own heart
We have to rebuild, the hardest thing is just to startMake me a better place
It's filled with a little love, yeah
Make me a better place
It's filled with a little love, yeah
