Forest

Race to Space

Walk with me, my little child
(Yup)
To the forest of denial
(Yup)
Speak with me, my only mind
Walk with me until the time
An' make the forest turn to wine
You take the legend for a fall
You saw the productWhy can't you see that you are my child?
Why don't you know that you are my mind?
Tell everyone in the world that I'm your
Take this promise to the end of youWalk with me my little friend
Take this promise to the end
(Yup)
Speak with me, my only mind
Walk with me until the end
An' make the forest turn to sand
You take a legend for a fall
You saw the productWhy can't you see that you are my child?
Why don't you know that you are my mind?
Tell everyone in the world that I'm your
Take this promise to the end of youTake this promise for a ride
You saw the forest, now come inside
You took the legend for its fall
You saw the product of it all
No television's in the air
No circumcisions on the chair
You made the weapons for us all
Just look at us nowWhy can't you see that you are my child?
Why don't you know that you are my mind?
Tell everyone in the world that I'm your
Take this promise to the end of you
