Reality

Zonata

Here on earth we see destruction
It has gone to far
We must change for new directions
Use your mind or fallSee through the past what we have done
Disaster soon will come
Hell after life or hell on this earth
Will we be rebirthedReality !Time is short years are counted
Generations lost
See the truth ! We are hunted
We must pay the costSee through the past what we have done
Disaster soon will come
Hell after life or hell on this earth
Will we be rebirthedNature bleeds for our disposal
We must point our view
You cant use your nuclear weapons
You must hear the callsSee through the past what we have done
Disaster soon will come
Hell after life or hell on this earth
Will we be rebirthed
We must gather now for a future instead of hell
We must gather now for a future instead of hell
