Little Fury Things

Dinosaur Jr.

What is it?
Who is it?
Where is it?A rabbit falls away from me, I guess I'll crawl
A rabbit always smashes me, again I'll crawl
Tried to think what's over me, it makes me crawl
Then she runs away from me, faster than I crawlI stopped to call, tried to feel it all
Stuck my hand and pulled real hard, got stretch in miles, not in yards
Then I read about all those who believe all of your lies
Sunlight brings the rage right in your eyesA rabbit falls away from me, I guess I'll crawl
A rabbit always smashes me, again I'll crawl
Tried to think what's over me, it makes me crawl
Then she runs away from me, faster than I crawlA rabbit falls away from me, I guess I'll crawl
A rabbit always smashes me, again I'll crawl
Tried to think what's over me, it makes me crawl
Then she runs away from me, faster than I crawl
