To The Taste

Vehemence

Burn! Fire it up, burn it down, the embers glow in the darkness
Feel warmth crawl in, through your head, drip down the spineTo the taste
Through water
Then into the lungs (exhale)Burn! Keep it packed, never cashed, don't even pass the dust hit
Breathe in comfort,block out the pain, if even just for a moment
Smile on my face, I twist the sky, through gates of forever
To taste the fire, mist filled haze blinds so peacefullyTo the taste
Through water
Then into the lungs (exhale)To the taste
Through water
Then into the lungs (Breath in)From seed to the stem, the bounty of earth
Creation in my hand
The hair and the leaf and the paper
All rolled into oneTo taste this lifeBurn! Fire it up, burn it down, the embers glow in the darkness
Feel warmth crawl in, through your head, drip down the spineBurn! Keep it packed, never cashed, don't even pass the dust hit
Breathe in comfort,block out the pain, if even just for a momentTo the taste
Through water
Then into the lungs
