

Backlines

Stars

You pull me in you take me down and what you want is what?
I love the colours of the road that lead me home to love
One, two too many times you took to trip me up,
Now that I know it's all you want it's still never enough
Calling on the backlines
Climbing from the battle to the other side
If courage is a live wire, I see it in your eyes
Too many pills think they know how to keep a choke on you
But you've got power pressure when I have too much to lose
The stakes are high my mind is twisted and the pressures up
At four o'clock awake my head more dizzy than a flood
Calling on the backlines
Running from the battle to the other side
If courage is a live wire I'll see it in your eyes
Running from the battle to the other side
If living isn't hard wired I'll see it in your eyes
