Reagan's In

Wasted Youth

Reagan's in we're going for good
We'll fight and kill the best we could
No one cares if we die
Reinstate the draft and tell us lies
You fight a war where no one wins
Where people die and bodies burn
Reagan don't care he won't fight
He'll try and send us with all his might
There he goes another one
Kill that man his values are wrong
It ain't movies it's not T.V.
It's preety rough man you will see
All this shit it's just no use
Men unite don't be abused
You have to go it's not your choice
Sure we'll go but hear our voice
Reagan's in we're going for good
Reagan's in we're going for good
