

# Lose It

## Too \$hort & Mistah FAB

Well, it's that time  
It's that time again  
Oh, it's all coming back around  
There she sees me  
Oh my god, this is who I've been  
And I'm branded each day  
Go on and lose it  
Go on and lose it all  
Go on and lose it  
Go on and lose it all  
Go on and lose it  
Go on and lose it all  
Go on and lose it  
Go on and lose it all  
Immediately we find out then  
That I can be blamed for this  
But then it just figured out today  
And you're so sweet, you say  
"Go now and get your own life for living your way"  
And I hear you say  
Go on and lose it  
Go on and lose it all  
Go on and lose it  
Go on and lose it all  
Go on and lose it  
Go on and lose it all  
Go on and lose it  
Go on and lose it all  
Well and if we find another then  
We will get ours  
Well and if we find another then  
We will get ours  
She's picking up her clothes  
She's off and she's running  
She says to me  
"Go on and lose it"  
I think she means well  
But man, I can't tell it  
She says to me

"Go on and lose it all"  
Go on and lose it all  
Go on and lose it all  
Go on and lose it all  
Go on and lose it all
