Hollow Man

R.e.m.

I?ve been lost inside my head
Echoes fall off me
I took the prize last night for complicatedness
For saying things I didn?t mean and don?t believe
Believe in me, believe in nothing
Corner me and make me something
I?ve become the hollow man
Have I become the hollow man I see?
I see this echoing
You have placed your trust in me
I went upside down
I emptied out the room in thirty seconds flat
I can?t believe you held your ground
Believe in me, believe in nothing
Corner me and make me something
I?ve become the hollow man
Have I become the hollow man I see?
I?m overwhelmed, I?m on repeat
I?m emptied out, I?m incomplete
You trusted me, I want to show you
I don?t want to be the hollow man
Believe in me, believe in nothing
Corner me and make me something
I?ve become the hollow man
Have I become the hollow man I see? I see
