Gold To Me

Ben Harper

You look like gold to me
And I'm not too blind to see
You look like gold
Said you look like goldAnd you make me want to sing
With all the joy you bring
You're looking like gold
You look like goldLike the rays down from the sun
When a new day has just begun
You look like gold
You look like gold
Now looking of courseIve been fooled before
But now how I know?
Ive made the mistake in the past
But now, now I know the difference
From gold, from gold and brassIts not the kind of gold that you wear
But the kind that can feel my care
Hey you look like gold
Now you look like goldSome shine when the day is new
But they fade when the day is through
But not you you look like gold
I said you look like goldBut but Ive been wrong before
But now I know
Ive made mistakes in the past
But now but now I know now I know
Now I know, now I know the difference
From gold and brassYou look like gold to me
And Im down on bending knee
You look like gold
Oh you look like goldAnd I just I just want you to know
To me you mean so so so much more
Than all all the gold, you look like gold
You shine like gold
Said you look like gold
