Hide Nothing

Further Seems Forever

We live and we learn and we crash and we burn and we're gone
We take what we know and we learn as we go and we run
Run until that day, we can see who we are
Have the final say, we keep being who we are
As love lights the way to the last day
And no one can take it away
Run and hide
(Run and hide)
Don't hide at all
(Don't hide at all)
Change is coming
Know it's nothing personal
Live our lives
(Live our lives)
Now hide it all
(Now hide it all)
Change is coming
Know it's nothing personal
We live and we learn and we crash and we burn and we're gone
(We live and we learn and we crash and we burn and we're gone)
We take what we know and we learn as we go and we run
Run until that day, we can see who we are
Have the final say, we keep being who we are
As love lights the way to the last day
And no one can take it away
Run and hide
(Run and hide)
Don't hide at all
(Don't hide at all)
Change is coming
Know it's nothing personal
Live our lives
(Live our lives)
Now hide it all
(Now hide it all)
Change is coming
Know it's nothing personal
We live and we learn and we crash and we burn and we're gone
(We live and we learn and we crash and we burn and we're gone)

We take what we know and we learn as we go and we run
(We take what we know and we learn as we go and we run)
We live and we learn and we crash and we burn and we're gone
(We live and we learn and we crash and we burn and we're gone)
We reap what we sow and we come and we go when we're young
