Difficult By Design

Kylie Minogue

It's a heartache
And the happiness
That won't let you rest
It's a pleasure
And the pain that comes
When you love someoneYou spend so much time
Tryin' to get it right
Don't ask the reason why
It's a part of lifeOur love can be difficult at times
But it was by design
Our love is difficult at times
But it is by designIt's a laughter
Beyond the tears
That you need to hear
But you know that
You can make it through
When a love is trueIt feels like a lonely road
You don't know which way to go
How I want you to know
You are not aloneOur love can be difficult at times
But it was by design
Our love is difficult at times
But it is by designLove is difficult
But it's by design
Love is difficult
But it's by design
Love is difficult
But it's by design
Love is difficult
But it's by designOur love can be difficult at times
But it was by design
Our love is difficult at times
But it is by design
